**LAMB LEASE ON JUMPING JACK IS TAKING PLACE IN FRONT RANK OF PRODUCERS**

Special to the Bonanza

MANHATTAN, Dec. 7.—The lease of Walter C. Lamb and associates on the Jumping Jack mining property, which for several months has been working quite unostentatiously, has taken rank as one of the best looking leases in the camp at present with every visible assurance of its becoming one of the heavy producers. According to the samplings of Sam C. Durkee, who recently has accepted the position of superintendent of the lease, there is a ledge of two feet of ore on the 85-foot level that averages \$50 a ton. This is being developed by a north drift, raises, etc., and as far as the work has proceeded the average values are maintained.

On the 150-foot level another drift is being driven in the same direction, though it has not been opened so far and the best of the shoot as yet has not been tapped. When the

\$50 average ore is developed there, thus having it on two levels and with 150 feet of backs the lease will be in a position to produce with any of them in the camp of a like or similar age and development.

At present there is a dump of upwards of 100 tons that Durkee believes will average \$15 a ton. As other ore is hoisted from the \$50 ledge, from whence most of it now is coming, the average will be improved rather than to remain the same.

The important feature of the lease is that it is in line to strike the very best that there is in the Big Four. The Jumping Jack lies just to the south of that portion of the Big Four where the great glory hole ore body lies. No limit to the southern extension of the ore has been found in the Big Four ground and rather than decreasing in size as it is followed southerly thus far it has increased and the values have kept up in like ratio. Knowledge of its presence on the Jumping Jack side is only a matter of digging for it and finding it there, which is being done in the Lamb lease. In any event, independently of extensions on the upper levels, it is bound to rake into the Jumping Jack at lower depths.

Jumping Jack ore in all respects is an exact replica of that of the Big Four. It is not quartz, but schist enriched by spar, which is the prevailing condition especially where the ore bodies are large, in the western end of the camp. Such has been proven to be the case from the Coop and Peterson lease in the Joker tunnel of the Big Four on the north-east, to the Metren-Cantwell lease on the Crescent on the southwest.

The Lamb lease on the Jumping Jack and that of Mushett and Wittenberg on the Big Pine are worked through the same shaft and with the same plant by a division of time.

**NOW MOVING BOARDING HOUSE TO KLONDYKE**

OUTFIT WILL ARRIVE IN NEW CAMP READY TO TRANSACT BUSINESS

To move a boarding house completely from one part of a city over paved streets to another part is something of a job, but to move such a structure over country roads from one camp to another, 11 miles away, that is something to undertake and to talk about, says the Tribune. It is the contract that Clyde Van Patterson has taken and that he has started to carry out.

He agreed with James Golden, the Klondyke mine owner to move a house from Diamondfield to Klondyke, to get it into shape and to start it up as a boarding house, for business is good at Klondyke and such an accommodation is required. Then the question was raised of how to do it.

Van Patterson took four heavy wheels, strengthened them and the axle trees and then took two large poles as long as those on which telegraph wires are hung. With this curious rig, almost as wide as it is long, he went to Diamondfield and got the house aboard. At 8 o'clock this morning he had begun the trip which is to be made slowly.

**HYPATIA READING CLUB TO STUDY BROWNING**

The Hypatia Reading club met with Mrs. W. G. Adams Thursday afternoon. Browning will be the study for the coming month.

Mrs. Thomas Lansborough in a previous lesson took up the life of the poet and on this day gave several selections from his works, not forgetting the exquisite "Songs From the Portuguese," the incomparable poems by Elizabeth Barrett.

**MASSEY INTRODUCES BILL IMPORTANT TO NEVADA**

A bill which will be of far reaching importance to Nevada, with especial reference to Lovelock, Winnemucca and Elko has been introduced in the United States senate by Senator Massey of Nevada.

The purpose of the bill is to confirm titles to town lots sold by the Central Pacific Railroad company or its land companies in the state. The railroad claims ownership of certain lots on its right of way through this state. Senator Massey's bill, if it is passed, will confirm the titles of individual owners.

**CHIEF OF POLICE SMITH RECOVERING FROM ILLNESS**

Chief of Police Charles G. Smith, who has been confined to his home for the past week suffering from a severe cold, is reported as slowly recovering and it is expected that he will be allowed by his physician to venture down town tomorrow. Smith narrowly escaped having pneumonia and for several days it appeared that the efforts of his physician to avert this disease would prove unsuccessful. He is somewhat weak but is fast gaining strength and it is probable he will be able to resume his official duties early next week.
